

# VANDERHOOF & AREA PRODUCER DIRECTORY

The **Nechako Valley Food Network** is creating a printed directory of local food producers for distribution in our community. The goal of the directory is to be a community resource guide that will help link local food producers with interested consumers, thereby, *supporting our local economy* and *supporting healthy living*.

The directory is open to **large and small-scale food producers**, along with **backyard gardeners**, who sell or have goods (meat and/or veggie) available for local consumers. Producers are asked to please contact us to be included in this valuable community resource.

**LISTING IN THE DIRECTORY IS FREE!**

**Please contact us by June 11, 2010**

*Expected distribution: 2000 copies in Vanderhoof and area*
